

Comments on N2021-1

May 22, 2021

To the Postal Regulatory Commission:

I am a US citizen relies on the Postal Service. I am writing in opposition to the proposed changes to the Postal System that would further negatively impact service and standards.

I am concerned about further changes to the postal service specifically because many of my **elderly friends and family** rely on the postal service for ALL of their personal, medical and financial needs. They have repeatedly recently experienced lost mail and unacceptable delays.

The 10-year plan that is proposed will create an even further death spiral. While I personally may have options for paying bills, banking and other necessary communications, many people do not. If you approve this plan you must acknowledge that you are knowingly killing what is arguably our oldest Constitutional "original" public government agency. Do not privatize our Postal Service!

Yours truly,
